**THE GRANT GROUP IS A FEATURED MANUFACTURER AT THE
MICROSOFT GLOBAL AUTOMOTIVE SUMMIT**

[FRASER, MICHIGAN, April 22, 2005] – The Grant Group will be featured as medium-sized manufacturer participating in the Microsoft® Global Automotive Summit April 29th in Dearborn, Michigan.

The Grant Group consisting of Grant Industries, Inc., Press-Way, Inc. and Eagle Assemblies, Inc. located in Fraser and Clinton Township, Michigan offer value-added stamping, clips and assemblies to the production parts automotive industries. They utilize Microsoft® Business Solutions – Solomon®, using the Solomon General Ledger, Solomon Receivables and Solomon Accounts Payable modules. For specific production parts automotive supplier work they utilize AIM Vision®, the mandate management system for small to medium sized manufacturers from AIM Computer Solutions, Inc. that is designed for deployment with Microsoft-Solomon. AIM Vision®, for example, transmits data from the bar code shipping application directly to the Solomon Receivables module, meaning that products may be invoiced as they are shipped.

The Global Automotive Summit is focused on the Microsoft Peak Performance Initiative which is designed to help manufacturers accelerate insight through advanced analysis services, drive innovation through collaboration, and improve performance via increased visibility into operations across the manufacturing value chain. Based on extensive research and feedback from partners, customers and industry experts, Microsoft's Peak Performance Initiative provides an innovative and cost effective approach that allows automotive customers to take full advantage of their legacy investments while connecting key systems, people and organizations across the automotive supply chain to remove the barriers that stifle innovation and competitiveness.

About The Grant Group

The Grant Group, consisting of Grant Industries, Inc., Press-way, Inc. and Eagle Assemblies, Inc. located in Fraser and Clinton Township, Michigan offers value-added stamping, clips and assemblies to the automotive industries. Grant Industries has been manufacturing a wide range of stamping, clips and assemblies since 1963. Adopting the latest technology and efficient production methods, Grant has been able to deliver the highest quality parts at competitive pricing.

About AIM Computer Solutions, Inc.

Michigan-based AIM has grown into the leader for a complete software solution for small to medium sized automotive suppliers. AIM Vision® provides a single source for automotive EDI integration into production scheduling complete with demand smoothing to accommodate work schedules, machine repair/refurbish, and other scheduling considerations. "Frozen" demands are then used to generate MRP and CRP reports, fully synchronized with Tier 1 and transportation customer requirements. Other capabilities include outside processing, lot control, finite scheduling, and two levels of tool/workstation scheduling logic, barcode label generation and significant use of operator friendly edit and validation aids.
